Swale Borough

Environment Agency's Recorded Flood Outlines

Blue: Flooding from the sea

Magenta: Flooding from Main Rivers

Notes

The Historic Flood Map shows the recorded flood outlines available from the Environment Agency. The dataset records historical flooding from rivers, the sea, groundwater and surface water.

It is possible that the pattern of flooding has changed and areas would now flood or not flood under different circumstances.

Please note that not all historical records may be shown on this map, and that it is therefore advised you contact the Environment Agency for updated information.

The map does not include recorded incidents of flooding held by Kent County Council or Southern Water.

Contains Ordnance Survey data © Crown copyright and database right 2019.
