

JSNA Questions

1. How often has the Kent JSNA been discussed at your HWB meetings in the last year? E.g. Needs assessment, CCG profile, Health & Social Care Maps

2. Has the Kent JSNA been useful in informing commissioning discussions across health and care services? If so, how?

3. Any suggestions for improving the Kent JSNA? Eg. Any particular indicators or advanced analytics such as demand modelling / projections that would like to be seen in future needs analyses / needs assessments?
