

ANNEX B

South Road, Faversham - Proposed Double Yellow Lines

Response	Support	Object	Comments
1		1	In recent years it has become more and more difficult to park outside our house, due to cars from Tanner Street and Nightingale Road. Also there are cars from further up South Road where there are yellow lines, and commuters due to parking restrictions nearer to the station. Emailed comments continue....
2	1		The problem is getting worse. The amount of cars parking long term has doubled, most times I have to shunt to exit my drive.
3	1		We have a garage/driveway shared with our neighbour and this has been increasingly difficult and dangerous to manoeuvre into and out of over the last few months. I very strongly favour this proposal.
4	1		It is already difficult to enter South Road safely from the raised roadway because of parked vehicles, especially vans, on the south side. The proposed lines will make it safer by allowing extra "swing" space and by removing the obstacles of cars parked on the north.
5	1		
6	1		Very good idea
7	1		
8	1		
9		1	Insufficient parking already. Tanners Street should revert to "permit free" parking. People attending nearby church also park here. Parking in Ospringe Road causes tight road space, but this does not seem to be an issue. Visitors have nowhere to park, double yellow lines will make worse. Large number of new properties in Faversham and Residents Parking Scheme have had huge impact on parking in the area.
10	1		Long overdue

ANNEX B

Preston Street Faversham - Proposed Changes to Single Yellow Lines Times

Response	Support	Object	Comments
1	1		Business need helping and free parking is one of the best ways of doing this. The only thing that needs to be thought of is the passing points. From 5-7 pm it can get congested/blocked due to everyone wishing to go first or not looking in front of them to see if the route is clear. Turning right into Stone Street from Preston Street will help to relieve this.
2	1		Support the proposal to amend waiting restrictions to be changed to 8.30-5.00pm This will be good for the community.
3	1		
4	1		
5	1		This would be beneficial to all businesses in this part of Preston Street
6	1		
7	1		You could also consider allowing 1 hr wait/stop to support all local shops
8	1		Please consider increasing waiting time to 1 hr along Preston Street.

15		1	Traffic congestion on Preston Street is bad enough already so please don't make it worse by relaxing parking restrictions in this way.
