

Note from Chief Executive to motion

It is entirely acceptable to ask the working group to consider the request at point (2) of this motion. However, any decision by the working group would need to be fully evidenced. At this stage members should be aware that the costs of such a study could be prohibitive, and the impact the study would have on the overall infrastructure delivery plan and hence the local plan review is unclear. In the event that the motion is carried, officers will undertake the work necessary for the working group to take a properly evidenced decision.

Larissa Reed

Chief Executive
