

Traffic Regulation Order Swale Amendment 45 2023

Tanners Street, Faversham – Proposed Extension of Residents’ Parking Bay

Formal Indication of Support

Regarding the above traffic regulation order, I would like to send my support to the proposal. Extending the bay by 1.5m is a good thing and should be supported by all residents.

Formal Comment

As you rightly say, work was done earlier this year to reduce the parking bays The whole idea and reason for this was to enable the Recycling Bin Lorry to be able to operate along this part of Tanners Street without the interference of parked cars or the necessity for a neighbour to place his bin in a position which enabled the lorry to proceed. This was also to enable ambulances, as we do have some elderly residents living in the street and the Fire Services to be able to pass through.

I am concerned that all the possibilities for the first amendment were not thought through enough, if a resident is now voicing concerns again. If the proper measurements were taken in the first place, presumably this amendment would not be necessary. Parking is a major problem in this street and many other streets in Faversham. The fact that many of the houses date back years must be seriously considered as their roofs are overhanging the pavement and many of the windows are open in the front and can be at the height of a large delivery lorry.

If this proposal is to be considered then accurate measurements must be taken to ensure that we do not face further amendments in the future and the spending of unnecessary public money.

Please ensure my concerns reach the appropriate committee.

Burley Road, Sittingbourne – Proposed Formalising of Disabled Persons’ Parking Bay

Formal Objection

Good evening, I have recently seen that 19 burley road has requested to make their existing disabled bay formalised. Due to the fact that the house is currently on the market (advertised on purple bricks) with the owner planning to move house I would like to request that at current the proposed order is declined, given that it can take up to 12 months to remove a formalised bay compared to 3 month on their existing advisory bay.

Response from Applicant

Further to our telephone conversation this morning I am emailing to let you know that I am NOT moving from my home in Burley Road. Yes the house is on the market at the moment as you are aware ... but that was purely done to see how the market lay with prices being how they are at present.

I do not have any intention on going anywhere and would like to continue with the disabled bay.

I hope this is all the information you require to continue.
